Laravel / PHP • MySQL • JavaScript • Blade • Tailwind CSS • SaaS
Sialkot, Pakistan | +92 310 6190258 | shazeenwaris@gmail.com| **LinkedIn** | GitHub

PROFESSIONAL SUMMARY

Full Stack Laravel Developer specializing in building scalable SaaS platforms, multi-tenant systems, and business management applications. Experienced in designing secure backend architectures, REST APIs, role-based access control, payment integrations, and data-driven dashboards. I focus on delivering reliable, maintainable, and user-friendly solutions that solve real business problems and drive efficiency.

TECHNICAL EXPERTISE

Laravel | PHP | MySQL | Livewire | JavaScript | REST APIs | Multi-Tenancy | SaaS Development | Authentication & RBAC | Payment Integration | API Integration | Database Design | Business Automation

PROJECTS

SCHOOL MANAGEMENT SYSTEM

Laravel | PHP | MySQL | Livewire | JavaScript |

- Developed a multi-tenant school management system with role-based portals for Admin, Teachers, Students, and Parents.
- Built modules for admissions, academics, attendance, fees management, examinations, timetable, messaging, and reports.
- Implemented secure authentication, role-based access control, and data isolation for each tenant.

HOTEL BOOKING SYSTEM

Laravel | PHP | MySQL | Livewire | JavaScript | AJAX

- Built a hotel booking platform with room management, booking engine, availability calendar, user management, and payment integration.
- Developed features including search and filters, booking management, invoices, and admin dashboards.
- Implemented email notifications and reporting for bookings and customers.

PORTFOLIO WEBSITE

HTML | CSS | JavaScript | Bootstrap | PHP (Laravel)

- Designed and developed a personal portfolio website to showcase projects, skills, and professional experience.
- Built a fully responsive and SEO-friendly interface optimized for performance.
- Integrated contact forms and smooth UI/UX interactions for better user experience.

WORK EXPERIENCE

DYNSOF SOLUTIONS, Pasrur, Pakistan
Full Stack Laravel Developer
May 2025 – Present

- Develop and maintain scalable Laravel-based SaaS and business management applications.
- Design multi-tenant architectures with secure authentication, role-based permissions, and isolated workflows.
- Build modules for school management, HR/attendance, payments, reporting, and administration.
- Develop REST APIs and integrate third-party services, payment gateways, and external APIs.
- Design relational databases, optimize queries, and implement reusable Laravel MVC architecture.
- Build responsive dashboards and interactive interfaces using Livewire, JavaScript, Bootstrap, and Tailwind CSS.
